SUMMARY

- I am a Master's student at the Kim Jaechul Graduate School of AI, KAIST, advised by Professor Yong Man Ro.
- My research focuses on Multimodal AI and Computational Creativity.

EDUCATION

Degree	Period	GPA
Master in Artificial Intelligence Korean Advanced Institute of Science and Technology (KAIST), Daejeon, Republic of Korea	March 2026 – February 2028	—
Bachelor in Computer Science & French Language and Literature (Double Major, Summa Cum Laude) Yonsei University, Seoul, Republic of Korea	March 2020 – August 2025	3.95/4.3

PUBLICATIONS

Do Language Models Associate Sound with Meaning? A Multimodal Study of Sound Symbolism

Association for the Advancement of Artificial Intelligence (November 2025)

Jinhong Jeong*, **Sunghyun Lee***, Jaeyoung Lee, Seonah Han, and Youngjae Yu

Accepted in AAAI 2026 as Oral Presentation as co-lead author

Speaking Beyond Language: A Large-Scale Multimodal Dataset for Learning Nonverbal Cues from Video-Grounded Dialogues

Association for Computational Linguistics (June 2025)

Youngmin Kim*†, Jiwan Chung*, Jisoo Kim, **Sunghyun Lee**, Sangkyu Lee, Junhyeok Kim, Cheoljong Yang, and Youngjae Yu

Accepted in ACL 2025 Main Conference as third author

MAVL: A Multilingual Audio-Video Lyrics Dataset for Animated Song Translation

Empirical Methods in Natural Language Processing (May 2025)

Woohyun Cho, Youngmin Kim, **Sunghyun Lee**, and Youngjae Yu

Accepted in EMNLP 2025 Main Conference as co-second author

WORK EXPERIENCE

KAI SYSTEM — Machine Learning Engineer & Research Assistant Intern Developed a Machine Learning pipeline for KFEMS (Korean Factory Energy Management System) handling sequential industrial data. • Built and experimented with AI pipelines using industrial data • Patent registered in the Republic of Korea for a real-time energy data management method • Copyright registration pending	February 2024 – November 2025
MindForge — Research Assistant Intern Developed a Real-time 3D hand pose estimation model for HCI.	December 2023 – February 2024
Republic of Korea Army — Mandatory Military Service Completed mandatory military service in the Republic of Korea.	February 2021 – August 2022

AWARDS & HONORS

Award	Awarder	Date
Graduated with Summa Cum Laude <i>Graduated with Top 3% of the college in GPA</i>	Yonsei University	August 2025
Yonsei GenAI contest 2024, silver prize <i>AI-Powered Desktop PC Recommendation System with Conversational Interface</i>	Yonsei University	December 2024
Yonsei University Dean's List <i>Dean's List for the academic year 2022 fall semester</i>	Yonsei University	February 2023
Yonsei University Dean's List <i>Dean's List for the academic year 2020 fall semester</i>	Yonsei University	February 2021

SKILLS

Computer Science	Python, PyTorch, TensorFlow, Scikit-learn, Computer Vision, Natural Language Processing, Machine Learning, Deep Learning, Data Science, Data Preprocessing and Construction
French	French linguistics (Pragmatics, Semantics, Syntax, Morphology), French literature (Video art, Poetry, Novel)

LANGUAGES

Korean	Native speaker
English	Fluent (Full Professional Proficiency)
French	Intermediate
Japanese	Basic

CERTIFICATES

Certificate	Issuer	Date
Microsoft Certified: Azure AI Fundamentals	Microsoft	August 2023
Military Service Completion	Republic of Korea Army	August 2022

PROJECTS

Implementing RAG LLM Service for Korean Factory Energy Management System (KFEMS) Developed a RAG LLM service for Korean Factory Energy Management System (KFEMS) to provide energy management insights and recommendations. • Implemented the prototype of internal RAG LLM service for FEMS.	August 2025 – November 2025
